Work Experience

Go With the Flow: Art by Alec
Visual/Interaction Designer

November 2010 - Present

- Create visual art that focuses on experiential design such as interactive installations, digital illustrations and paintings.
- Manage business-related tasks, such as online shop maintenance, client relationships, and inventory upkeep.
- Operate 3D fabrication tools such as laser cutters, CNC, and various power tools for public events and installations.
- Curate interactive installations on site as well as perform live painting for public events.

Chris Knight Creations
Sign and Sculpture Fabricator

March 2019 - March 2020

- Created 3D signs and sculptures out of wood, acrylic, resin and foam.
- Operated CnC routers, industrial laser cutters and table saws.
- Held meetings with clients to discuss details and expectations of projects.

Chicago Projection Labs, LLC
Visual Design Coordinator

June 2018 - January 2019

- Created icons, website pages and layouts, for the company's brand.
- Designed digital illustrations and animation content for clients seeking to activate a projection mapping and other interactive media installations.
- Handled and calibrated projectors and other AV equipment during public events.

Education

DePaul University - Chicago, IL
Bachelor's Degree in Interactive Social Media
Concentration in Design
